For all kinds of Plain Front Mortise Locks, including Front Door Locks, extra,

For all kinds of Rabbeted Front Mortise Locks, including Front Door Locks, extra,

STEEL BRONZE REPRESENTS POLISHED IRON BOLTS, AND EDGE OF FACE PLATE TO IRON FRONT MORTISE LOCKS AND LATCHES; ALSO, POLISHED AND WROUGHT IRON LOCK AND LATCH CASES. WHEN SHOWN INSIDE OF LOCKS, IT REPRESENTS WROUGHT IRON TUMBLERS, AND SHANK TO BOLTS; ALSO, STEEL SPRINGS, WHEN SUCH ARE USED, SCREWS; KNOB AND BELL PULL SPINDLES; IRON PADLOCK KEYS AND SHACKLES.

TO PRODUCE THE PROPER EFFECT OF BRONZES USED UPON THIS WORK TO REPRESENT THE VARIOUS METALS, THE BOOK SHOULD BE EXHIBITED IN A STRONG LIGHT.

BUILDERS' MASTER KEYED LOCKS.

Nos. 610, 611, 663, 664, 665, 666 and 667.

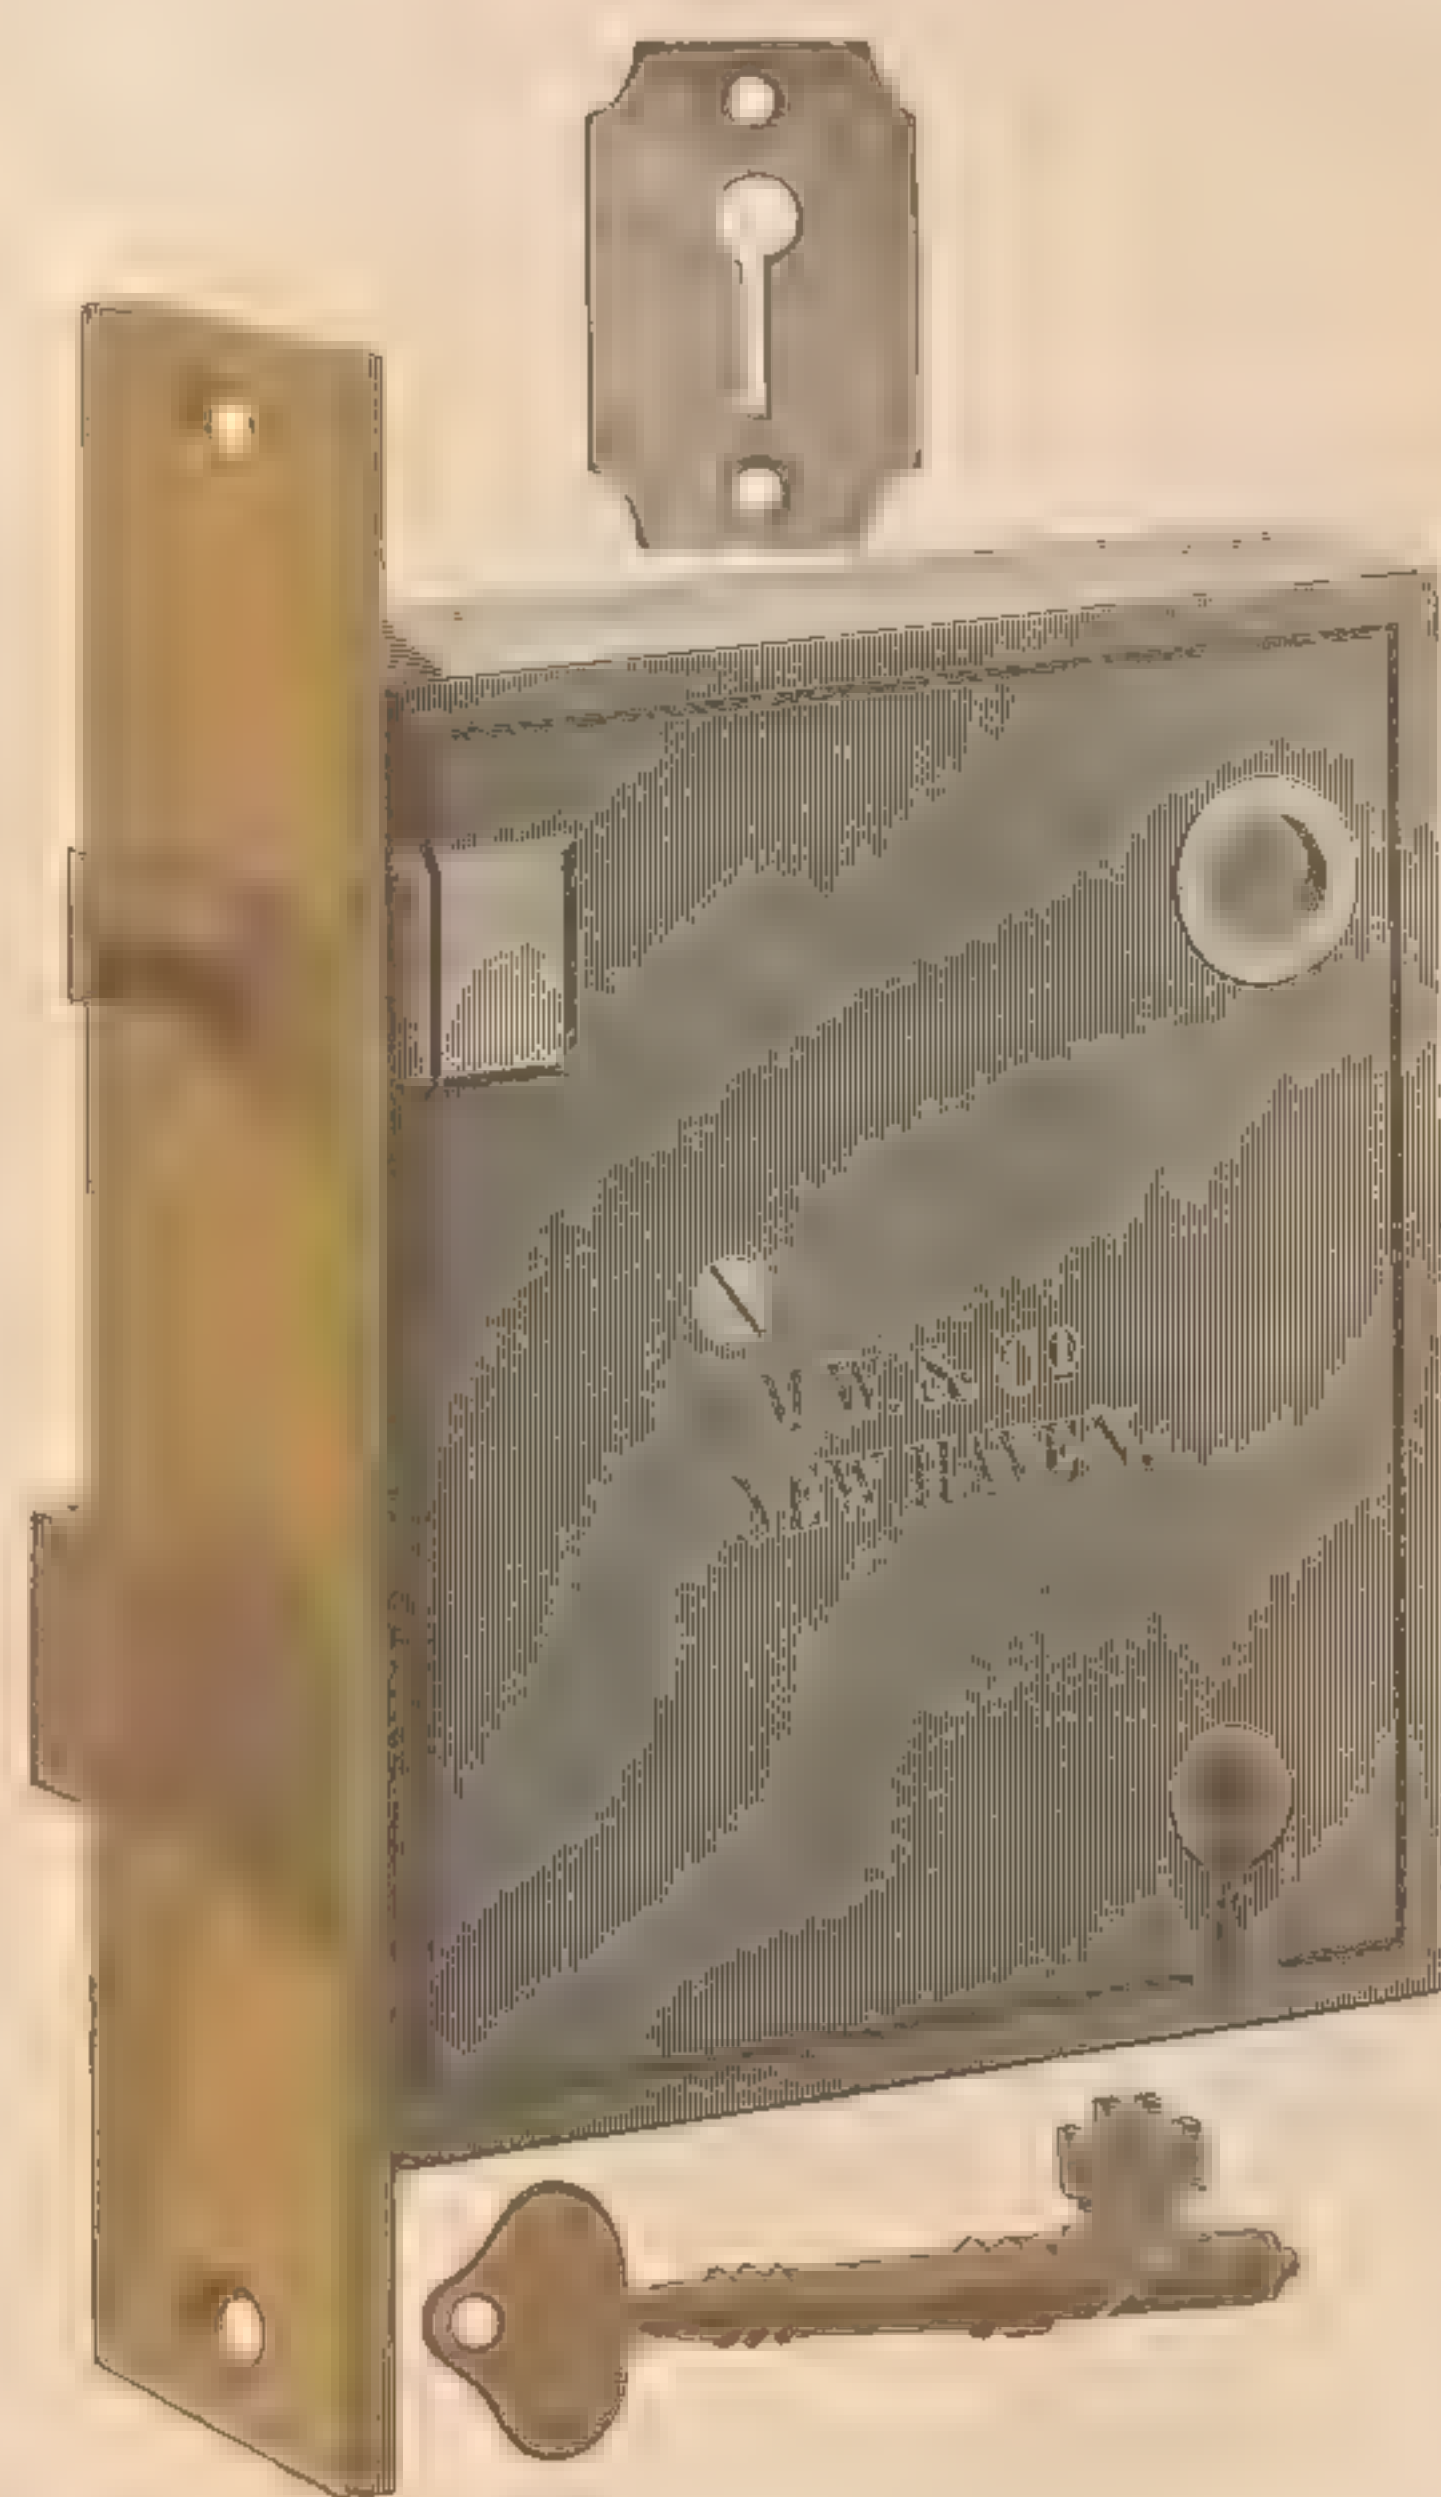

We have succeeded in producing a Lock, for which there has long been a demand, which can be made in sets of any quantity, from six to one hundred with Four Tumblers, and from six to sixty with Three Tumblers.

The Lock is on an entirely new principle, and made very safe. The Master or Pass Key is not a Skeleton, but is as safe as the regular key.

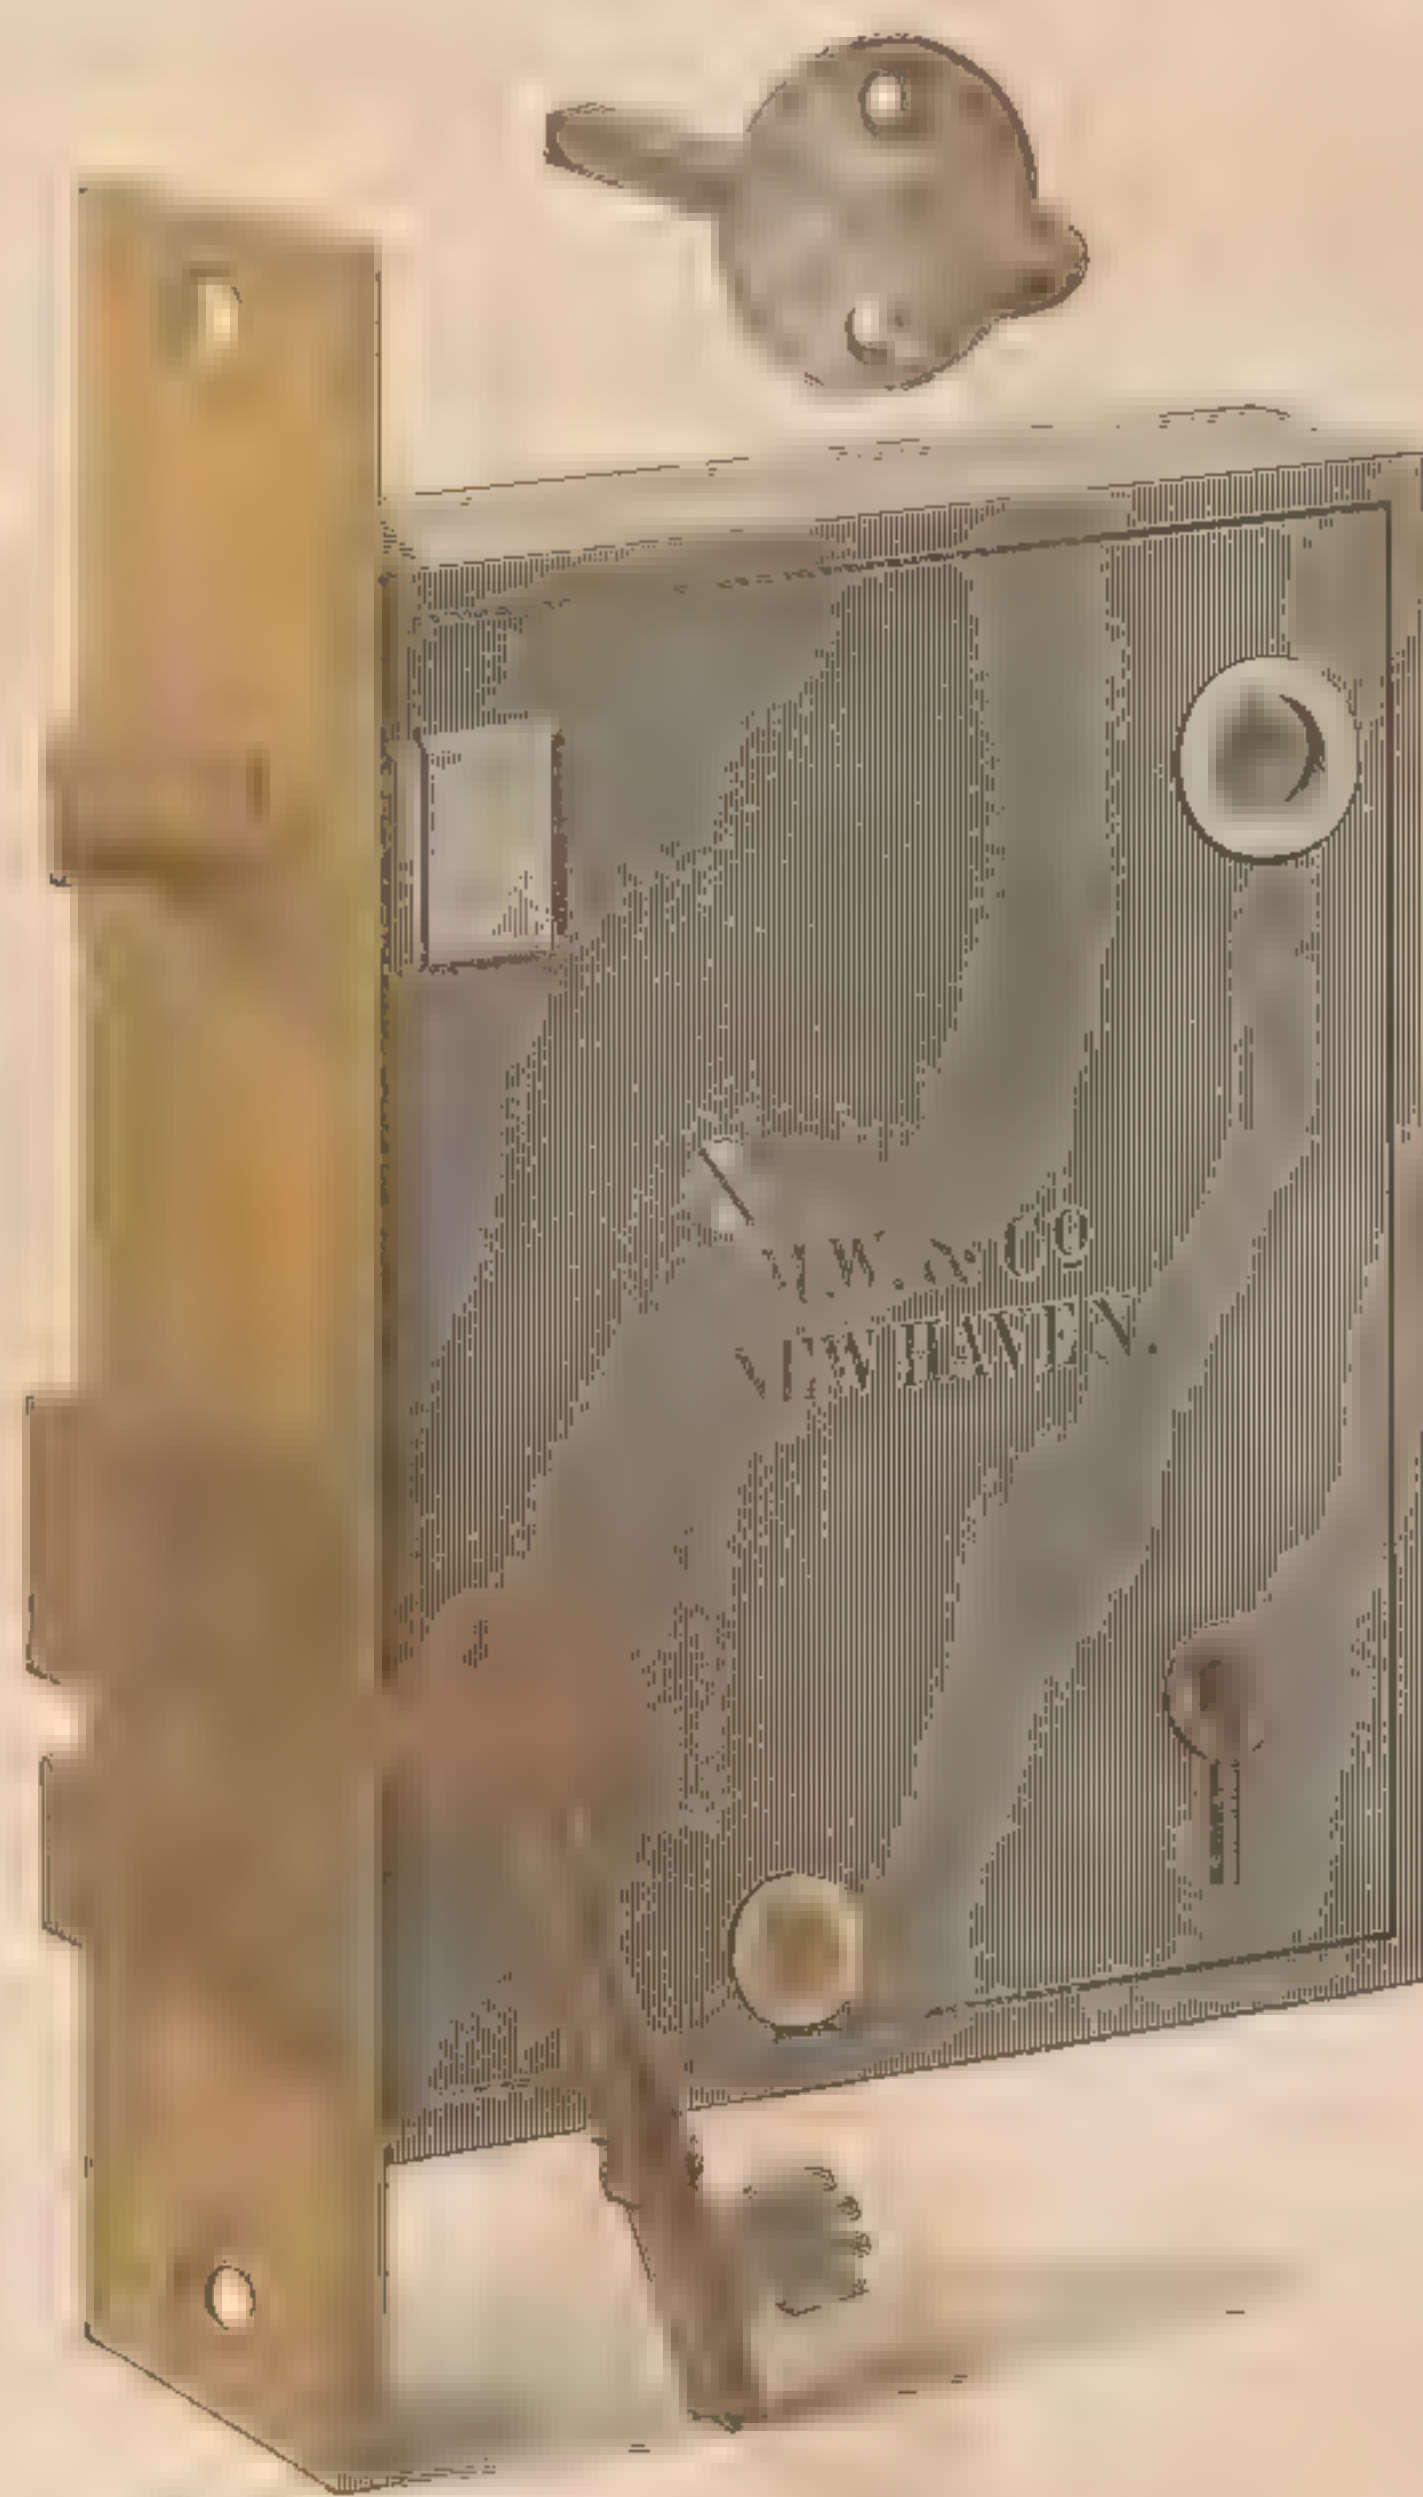

These Locks have been produced at a large outlay for dies, patterns, etc., and we feel quite sure they will meet with favor.

The Lock with Four Tumblers we can make six hundred all different, and a Master Key to fit each one hundred. Each of the six Master Keys differs from the others, which renders it a desirable Lock for Hotels or large Public Buildings.

The Locks Nos. 610 and 611, we can make three hundred all different, and a Master Key to fit each sixty; each of the five Master Keys differing from the others.
